

## CMC352 - Test Analyst (Mobile Trading Platform)

**Department:** Technology Development

**Reporting to:** Mobile Technical Lead

Since launching in 1989, CMC Markets has become one of the world's leading online CFD and financial spread betting providers, with nearly 32 million trades executed annually across Europe, Asia Pacific and North America.

CMC Markets' success is founded on its ability to deliver a wide range of trading products to customers, from single equities to indices, currencies and commodities. This means our clients don't need to go to a forex broker, futures broker or a commodities broker to trade these different instruments, they can trade them all through one trading platform. CMC Markets has pioneered the development of online trading in markets around the world to become a world leading spread betting and CFD provider.

### **Purpose of Role:**

CMC Markets are looking for a Test Analyst to join our Mobile Development team to work in a quality assurance role on our client facing Trading Platforms (iPhone, iPad and Android applications). The chosen candidate will have strong skills in user interface manual testing proven in a commercial environment. Exposure to financial markets is essential.

### **ROLE AND RESPONSIBILITIES**

- Work alongside Business Analysts, Developers and other Test Analysts to review business and technical requirements and prepare test cases;
- Execute test cases in a systematic and organised fashion, raising defects and preparing reports on test coverage;
- Conduct regular regression testing across all the Mobile Frontend platforms and help produce and maintain regression test packs;
- Provide help investigating issues in the test and development environment;
- Assist the support and customer facing teams to investigate and resolve live issues;
- Maintain personal/professional development to meet the changing demands of the role, including all relevant regulatory and legislative training;
- When dealing with all customers, clients or colleagues ensure that we provide a clear, fair and consistent high quality service that presents a professional and positive image of CMC Markets;
- Take all reasonable steps to ensure appropriate confidentiality;
- Undertake such other duties, training and/or hours of work as may be reasonably required and which are consistent with the general level of responsibility of this role.

### KEY SKILLS AND EXPERIENCE

- Previous experience working as a dedicated test analyst within an IT team;
- Strong understanding of at least one tool for managing test cases and test coverage;
- Experience of manual testing on both iOS and Android platforms;
- Proven experience of using story/bug tracking tools (e.g. Jira);
- Basic understanding of waterfall and agile development methodologies;
- Demonstrable track-record of work in an agile environment;
- Strong problem solving skills;
- Able to work effectively with minimal supervision, taking ownership of tasks large and small;
- Some experience of automated testing would be advantageous.

CMC Markets is an equal opportunities employer and positively encourages applications from suitably qualified and eligible candidates regardless of gender, sexual orientation, marital or civil partner status, gender reassignment, race, colour, nationality, ethnic or national origin, religion or belief, disability or age.

### KEY OBJECTIVES/KPIS

- As per performance review.

### COMPETENCIES

- Communication
- Team work
- Customer focus
- Resilience & adaptability
- Problem solving

The Company reserves the right to review, alter and amend job descriptions from time to time in line with business requirements.
