

CMC379 – Senior Test Analyst – Web Development

Department: Web Development

Reporting to: Technical Team Leader / Architect

Since launching in 1989, CMC Markets has become one of the world's leading online CFD and financial spread betting providers, with nearly 66.8 million trades executed annually across Europe, Asia Pacific and North America.

CMC Markets' success is founded on its ability to deliver a wide range of trading products to customers, from single equities to indices, currencies and commodities. This means our clients don't need to go to a forex broker, futures broker or a commodities broker to trade these different instruments, they can trade them all through one trading platform. CMC Markets has pioneered the development of online trading in markets around the world to become a world leading spread betting and CFD provider.

ROLE PURPOSE

CMC Markets are looking for a Senior Web QA to work with the website development team in their testing and sign off procedures of our internal CMS and 40+ external multilingual retail websites. The chosen candidate will help to provide full TDD/BDD test coverage across our web stack. To help set up and maintain TDD on our retail website JavaScript codebase.

ROLE AND RESPONSIBILITIES

- Work alongside the Website Development team to provide BDD test coverage across all modern browsers and devices;
- Set up and maintain TDD development of the retail website JavaScript codebase;
- Share knowledge with the website developers, QAs and automation teams;
- Assist with regression testing our internal CMS and external retail website;
- Provide help investigating issues in the test and development environment;
- Maintain personal/professional development to meet the changing demands of the role, including all relevant regulatory and legislative training;
- When dealing with all customers, clients or colleagues ensure that we provide a clear, fair and consistent high quality service that presents a professional and positive image of CMC Markets;
- Take all reasonable steps to ensure appropriate confidentiality;
- Undertake such other duties, training and/or hours of work as may be reasonably required and which are consistent with the general level of responsibility of this role.

KEY SKILLS & EXPERIENCE

Essential:

- Extensive experience of all modern browser/device based BDD testing of CMS' and retail (brochure) multilingual websites;
- Experience with API testing with tools such as Postman;
- Experience with CI tools such as Jenkins;
- Being able to look into HTML/PHP/JS code/mark-up to help with detailed reports of issues and testing scenarios;
- Excellent written and verbal communication skills.

Desirable:

- PHP Unit Testing;
- JSLint;
- Cucumber/Gherkin;
- Selenium Web Driver and JUnit;
- Previous experience working in a LAMP(HP) stack;
- Agile background;
- JIRA.

CMC Markets is an equal opportunities employer and positively encourages applications from suitably qualified and eligible candidates regardless of gender, sexual orientation, marital or civil partner status, gender reassignment, race, colour, nationality, ethnic or national origin, religion or belief, disability or age.
