

CMC381 – Senior Mobile Application Developer

Department: IT Development

Reporting to: iOS Technical Team Leader

Since launching in 1989, CMC Markets has become one of the world's leading online CFD and financial spread betting providers, with nearly 66.8 million trades executed annually across Europe, Asia Pacific and North America.

CMC Markets' success is founded on its ability to deliver a wide range of trading products to customers, from single equities to indices, currencies and commodities. This means our clients don't need to go to a forex broker, futures broker or a commodities broker to trade these different instruments, they can trade them all through one trading platform. CMC Markets has pioneered the development of online trading in markets around the world to become a world leading spread betting and CFD provider.

ROLE AND RESPONSIBILITIES

- Work with other mobile application developers to create new and enhance existing features on CMC Markets' native iOS mobile trading platforms;
- Interact with design team to review and feedback on designs;
- Work with Java Server developers to integrate IOS components with the backend system;
- Perform bug fixing and general code maintenance;
- Maintain personal/professional development to meet the changing demands of the role, including all relevant regulatory and legislative training;
- When dealing with all customers, clients or colleagues ensure that we provide a clear, fair and consistent high quality service that presents a professional and positive image of CMC Markets;
- Take all reasonable steps to ensure appropriate confidentiality;
- Undertake such other duties, training and/or hours of work as may be reasonably required and which are consistent with the general level of responsibility of this role.

KEY SKILLS AND EXPERIENCE

IOS

- Demonstrable commercial experience developing native IOS applications (iPhone and iPad) in a team environment, including both Objective-C and Swift 3/4 onwards (Example apps published on the Apple App Store to be provided at interview);
- Experience working with iOS frameworks such as Core Animation and Core Graphics;
- Experience in building custom user interface components. (Examples must be provided at interview);

- Comfortable with building UIView hierarchies programmatically as well as within Interface Builder;
- Familiarity with use of Instruments to profile and trace IOS apps;
- Experience building apps compatible iOS 9.0 to present.

General

- Knowledge of state-of-the-art software architecture principles, software design principles, IOC, domain-driven design, design patterns and OOP;
- Working knowledge of the general mobile landscape, architectures, trends, and emerging technologies;
- Comfortable with Git;
- Good understanding of Agile methodologies.

CMC Markets is an equal opportunities employer and positively encourages applications from suitably qualified and eligible candidates regardless of gender, sexual orientation, marital or civil partner status, gender reassignment, race, colour, nationality, ethnic or national origin, religion or belief, disability or age.
