

CMC408 - Senior PHP Developer

Department: Technology Development
Reporting to: Web Development Technical Lead

Since launching in 1989, CMC Markets has become one of the world's leading online CFD and financial spread betting providers, with nearly 66.8 million trades executed annually across Europe, Asia Pacific and North America.

CMC Markets' success is founded on its ability to deliver a wide range of trading products to customers, from single equities to indices, currencies and commodities. This means our clients don't need to go to a forex broker, futures broker or a commodities broker to trade these different instruments, they can trade them all through one trading platform. CMC Markets has pioneered the development of online trading in markets around the world to become a world leading spread betting and CFD provider.

ROLE AND RESPONSIBILITIES

- Working on a number of varied web development projects within an established dev team;
- Work with the PHP and front end developers on key development tasks, including developing new CakePHP CMS solutions, new CakePHP application form solutions, PHP/JavaScript coding, systems and data integration;
