Q4. Two topics in debate during the Brexit campaign were border control and access to EU markets. Since the UK voted to leave the EU in June 2016 these topics remain under dispute. While some say that in order to maintain access to EU markets they would be willing to allow free movement of labour and movement of people within the EU, others disagree and would not be willing to allow free movement of labour and movement of people within the EU to maintain access to EU markets. Which of these viewpoints is closest to how you feel?
